Mr. George Van Slyke  
Colorado Division of Water Resources  
1313 Sherman, Rm. 818  
Denver, CO 80203

Dear Mr. Van Slyke:

We are transmitting one copy of a document entitled, "Public Health Risk Assessment, 881 Hillside Area (OU1), Technical Memorandum No. 6, Exposure Scenarios, Revision 3.0", dated March 1992. This document is required by the Interagency Agreement and represents exposure scenarios as part of the Operable Unit 1 (881 Hillside) Baseline Risk Assessment. The purpose of this technical memorandum is to describe present, potential, and reasonable use scenarios.

Although responsibility for public health resides with EPA, CDH and DOE, we are requesting that as Natural Resource Trustees for groundwater resources, Appendix B of this document be reviewed and comments submitted to DOE. Note that Appendix B is entitled, "Investigation and Simulation of Water Production Capabilities." Since the draft Phase III RFI/RI Report for OU1 is due to EPA and CDH on July 30, 1992, we request that comments be submitted to DOE as soon as possible and no later than March 20, 1992.

Any questions or concerns should be directed to Scott Grace of my staff at 966-7199.

Sincerely,

David P. Simonson  
Assistant Manager  
for Environmental Management
